

Susana Travassos Sound Rider v1.0

(nov 2018)

(this rider has replaced all previous versions)

The following rider is a part of the artist contract and must be fully met. Any change or alternative must be negotiated with the Susana Travassos production team.

1. A competent sound engineer is required until the end of the concert. He must fully know the whole sound system and he should assist our sound engineer at stage and FOH position.

2. All the sound system must be set up and running before the musicians arrival at soundcheck time.

3. A quality sound system is required (line array preferred), with uniform coverage of the audience, and capable of provide 96db of sound pressure at the mix position. Preferred brands are Nexo, Adamson, L-Acoustics and Meyer Sound. In order to achieve an uniform coverage to the audience a front fill and delay speakers must be setup if necessary.

4. A quality sound console is needed, with there minimum characteristics:
 - . 16 microphone inputs
 - . 9 aux monitor sends
 - . 1 vocal compressor
 - . 1 vocal reverb
 - . 1 hall reverb

5. A total of 10 monitor wedges are required (1 for each musician, 2 for the singer, please chcke the attached stage plot), feeded by 9 independent aux sends from the desk. Even better if a monitor console and engineer are available.

6. We need 5 standard armless chairs and 6 music stands

7. **BACKLINE**
 - . Grand Piano & piano bench
 - . Drum Set (standard)
